3M™ Hookit™ Trizact™ Fine Finishing Foam Discs

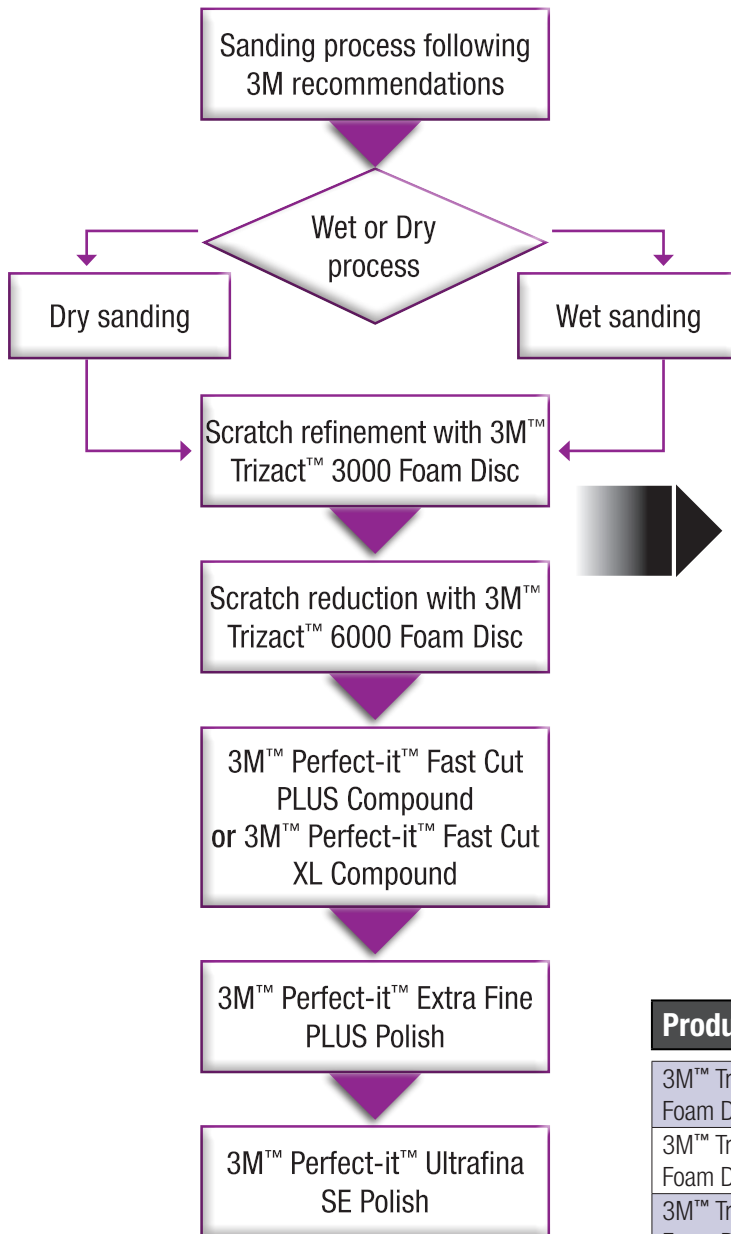

3M™ Hookit™ Trizact™ Fine Finishing Foam Discs can help reduce the amount of time spent on paint finishing. With the addition of this innovative product to our range, we have reinvented the process for paint rectification, delivering better results and helping bodyshops improve both cycle time and customer satisfaction.

- Produces a uniform and consistent finish with reduced re-work
- Reduces polishing time
- Easier and less tiring process
- Features unique Trizact™ abrasive technology

One good idea leads to another.

Paint Rectification Process

Instructions for use:

Use 3M™ Trizact™ 3000 followed by 3M™ Trizact™ 6000 to successively reduce sanding scratches with the following method:

- ▶ Use with a fine action D/A sander (2.5mm orbit) fitted with a 3M™ Hookit™ Soft Back-up Pad.
- ▶ Use direct on the back-up pad when sanding flat areas and for contoured surfaces add the 3M™ Hookit™ Soft Interface Pad.
- ▶ Wipe the panel, then wet the area and the disc face with a pump spray bottle. The disc should not be allowed to run dry.
- ▶ Using medium pressure, sand over the area until flattening scratches are no longer visible. You can check this by cleaning the area with a rubber squeegee.
- ▶ Follow with the 3M colour coded compounding and polishing process.

Products	Size	Part No	Unit
3M™ Trizact™ Fine Finishing Foam Discs 6000	150mm	51130	15 per box 4 boxes per case
